

Doro Inc. Disclaimer

All Evacu B users should read the supplied instructions and watch this video on the safe operation of the Evacu B before use. It is the responsibility of the hospital or other institution where this device is located to provide proper and sufficient training on safe operation of the Evacu B. The video contains general instructions for the safe use and operation of the Evacu B unit. The instructions do not cover every eventuality or emergency. Safe and proper use of this chair is solely at the discretion of the user. Doro takes no responsibility nor is any liability accepted for the use or misuse of the Evacu B unit.

Safety information is included to provide a service to the user. All other safety measures taken by the user should be within and under consideration of applicable hospital or other institution, state, province or national regulations. It is recommended that training in a practice evacuation environment on the proper use of this Evacu B unit be provided by the institution **before** using this unit in an actual situation.

A password will be provided at the time of purchase from the sales associate to download the Evacu B training documents from the company's website.
